Transportation: Walking

Shanghai Walker can take you on an inspiring and exciting walk in one of the many fascinating neighborhoods of Shanghai. We like to share OUR Shanghai; recurring topics during the walk be include Architecture, History, Chinese Symbolism, Daily Life and our own experiences accompanied by the always big contrasts of the city (Traditional & Modern). No walk is the same, every day is different and at each corner something new happens. That is what makes it so fascinating to walk through Shanghai. Stroll through authentic streets and you'll marvel at the high contrast with the modern Shanghai; from the maze of lilongs behind People's Square, Former French Concession, Jewish Quarter, Bund & Beyond, an Arty Walk along Suzhou Creek (and much more), these walks take you through the less-touristy areas of the city for a more local perspective.
